Home Automation

Home automation connects your lighting, security, and appliances into one smart system, offering comfort, safety, and convenience at your fingertips.

1. Smart Switches

Smart switches let you control lights, fans, and appliances with ease through touch, mobile apps, or voice commands, bringing convenience and energy efficiency to your home.

2. Digital Door Locks

Digital door locks provide keyless entry with PIN codes, cards, or fingerprints, ensuring advanced security and convenient access for your home or office.

3. Motion Detecting Lights & Sensors

Motion detecting lights and sensors enhance security and convenience by automatically activating when movement is detected, ensuring safety while saving energy.

4. Dimmer Lights

Dimmer lights let you adjust brightness to create the perfect ambiance while saving energy, giving you both comfort and control in your living space.

5. Curtains Motors

Curtain motors allow you to open and close curtains effortlessly with remote, app, or voice control, adding convenience, comfort, and a touch of luxury to your home.

6. Remote Gate

Remote gates provide secure and hassle-free entry with the convenience of operating your gate through a remote, app or automation system.

7. Public Address

Public address systems deliver clear and effective communication across wide areas, making them ideal for offices, schools, events, and commercial spaces.

Video Door Phones

Video door phones let you see and talk to visitors before granting access, enhancing both security and convenience at your doorstep.

Visitor Entry Systems

Visit or entry systems provide secure and hassle-free access management, allowing you to monitor, verify, and record visitors for enhanced safety and control.

Smart Cloud AI

Smart Cloud AI uses intelligent cloud-based technology to analyze data in real time, offering advanced security, remote monitoring, and smarter decision-making for your home or business.

CCTV Camera

CCTV cameras provide reliable 24/7 surveillance with high-quality monitoring, ensuring safety, security, and peace of mind for homes and businesses.

a. ANPR (Automatic Number Plate Recognition)

ANPR systems automatically capture and recognize vehicle number plates, enabling efficient access control, traffic monitoring, enhanced security management.

b. CCTV with PA (Public Address)

This integrated system combines CCTV surveillance with public address functionality, allowing real-time monitoring and instant communication for improved safety and crowd management.

eAlert

eAlert transforms existing CCTV infrastructure into an intelligent operational and security monitoring platform. Using Artificial Intelligence and Video Analytics, eAlert helps organizations improve efficiency, compliance, security, and decision-making across multiple locations in real time.

1. Operational Monitoring

Staff presence, queue analytics, TAT monitoring, branch opening/closing compliance.

2. Security Analytics

Human intrusion, perimeter alerts, loitering, unauthorized parking detection.

3. Facial Recognition

Attendance automation, blacklist alerts, visitor tracking.

4. Infrastructure Monitoring

Camera downtime alerts, recording failure detection, device health.

5. Smart Automation

Voice alerts, WhatsApp/SMS alerts, automated escalation workflows.

Boom Barriers

Boom barriers provide controlled vehicle access at entrances and exits, ensuring security, smooth traffic management, and authorized entry in residential, commercial, and industrial spaces.

Biometric System

Biometric systems use fingerprints, facial recognition, or iris scans to provide secure, keyless access and accurate identity verification for homes, offices, and institutions.

Products and Services

1. Outdoor Camera

Keep your surroundings secure with our weatherproof outdoor cameras, built for 24/7 protection.

3. Solar Camera

Enjoy uninterrupted surveillance with eco-friendly solar cameras—no wires, no limits.

5. Passive Infra-red Sensor Camera (PIR)

Detect motion instantly and reduce false alarms with PIR sensor-based surveillance.

6. Pan Tilt Zoom (PTZ) Camera

Cover wide areas with intelligent zoom, pan, and tilt features—all in one powerful camera.

7. Wireless Camera

Simplify setup and security with flexible, high-performance wireless cameras.

2. Indoor Camera

Monitor your home or office interiors with high-definition clarity and real-time alerts.

4. Vehicle Dash Camera

Capture every journey and protect your drive with reliable vehicle dash cams.

Clients & Testimonials

Our Esteemed Clients

Over the years, Techfin Enterprises has proudly served a diverse range of clients, delivering tailored surveillance solutions powered by Securus Cameras. Our commitment to quality, precision, and reliability has earned us the trust of both private and public sector establishments.

Here are some of our notable installations:

"The camera installation at our apartment was seamless and professional. The Techfin Enterprises has given our residents a real sense of security. Thank you, Excel Enterprises!"

—President, Evergreen Apartment

"Techfin Enterprises helped us secure our school premises with top-notch surveillance. Their team guided us with the best camera placements and ensured zero blind spots."

— Principal, Gyana Bharathi School

"From consultation to installation, everything was smooth. The wireless Securus cameras are perfect for our commercial store. After-sales support has also been excellent."

—Azad Hardware

"The PTZ and ANPR cameras installed at the bus stand have greatly improved our monitoring and security. We're very happy with the service provided."

— Project Coordinator, Uppinangady Bus Stand
